

“Simply do **MORE** with your scanning device.”

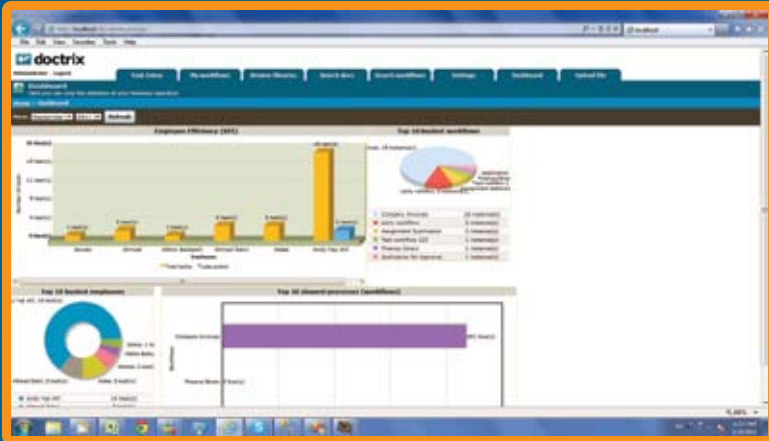

**Scan, store
and retrieve
with Doctrix**

Simplify workflows, save time and reduce expenses with Doctrix. This integrated document archiving tool allows you to easily scan, file and retrieve electronic and paper documents. Ideal for all document types including letters, faxes, email and records. Doctrix lets you and your employees work smarter.

MORE EFFICIENT

- Find files faster by eliminating the need to manually file and retrieve documents. Employees no longer waste time locating misplaced paperwork and routing information.
- Spend smarter by reducing administrative expenses, paper and printing costs, and storage liabilities.
- Consider the environment by removing the need for paper and space-wasting filing cabinets and storage rooms. Gain valuable office space.

Doctrix integrates directly at the scanning devices. Employees use the LCD display to scan and file paper-based documents directly on the MFP or scanner.

MORE ACCESS

Whether you are in the office or thousands of miles away from it, web-enabled technology allows immediate document access. Documents can be used, shared and distributed via any internet connection 24/7—improving customer response times and productivity.

- Easy to use with a familiar internet search engine interface. Employees can immediately begin using the application without costly, time-consuming training.
- Easy to install without complicated implementation, saving your IT department valuable time.
- Easy to control with password-protected access. You can be confident that sensitive information is secure.

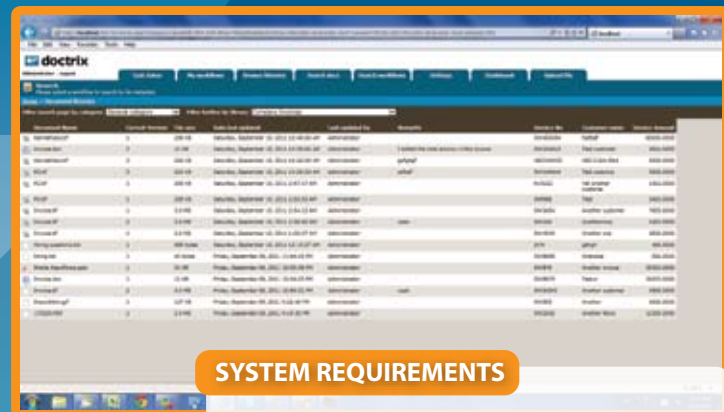

MORE OPTIONS

Doctrix expertly addresses the varied document management needs of different industries and comes complete with seven predefined filing cabinets:

Industry	Doctrix filing capability
Administration	Company name, document type, date and more
Education	Student name, student number and more
Finance	Client name, client number and more
Human Resources	Employee number, employee name, document type and more
Logistics	Distribution documents, consignment notes and more
Legal	Subject matter, case number, client name and more
Medical	Patient name, patient ID number and more

Doctrix delivers a feature rich intuitive solution for about the same price as the basic “one size fits all” applications packaged with most MFPs and scanners. So you can do more for your business and your bottom line.
